

Disposal Program 3

FEDERAL FACILITIES CORPORATION

WASHINGTON 25, D. C.

January 20, 1955

SR None  
(Ref. SR 418  
SR 483)

MEMORANDUM TO THE RUBBER DISPOSAL COMMISSION:

Attention: Mr. Ferris Thomas  
Secretary

As suggested by Mr. Heins, we have further discussed with Mr. Humphreys of the Shell Chemical Corporation, more details in reference to their requested visit to the Dow and Midland facilities on January 24-28. Their request is actually to examine the assets of each of these plants, not on property covered by the deed which will be used for transmittal of the property. Basically, this constitutes any assets not within the plant fence, such as easements, leases, pipelines, etc. The purpose of obtaining the above information is to work out the necessary further legal documents with the Disposal Commission for transfer of title.

In view of the above circumstances, the requested visit to obtain the information outlined is hereby approved and the Plant Managers have been so notified.
